

SMS REQUEST FORM

This form is intended for use by US Government personnel for the express purpose of requesting copies of software (portions of which are proprietary) developed through a joint effort of a consortium of US government and university participants. The federal consortium agencies are:

US ARMY CORPS OF ENGINEERS (USACE)

Only members of the federal consortium may use this form to request the software. On-site contractors to these federal agencies are permitted to use the software only for projects directly funded by a consortium member. The term "on-site contractor" means that the contractor must be physically located at a site owned by a consortium member and engaged solely in US Government business. Requests for software by contractors must be made by a representative from the federal consortium.

INSTRUCTIONS

Request SMS For USACE Use:

1. Fill out Section 1 of request form
2. Fax/mail form to address below
3. Download SMS from Web Site
4. Send in Security String to obtain password

Request SMS For USACE On-Site Contractor Use:
